

VEGGIEDENT® FR3SH™

MEAT-FREE DENTAL CHEWS FOR DOGS

DESCRIPTION

Vegetable based dental chew sticks that are enhanced with FR3SH™ Technology to target bad breath and prevent plaque and calculus build-up.

ACTIVE INGREDIENTS

FR3SH™ Technology composing of:

- Erythritol
- Inulin
- Pomegranate

KEY BENEFITS/PROPERTIES

- FR3SH® Technology to address oral and digestive causes of bad breath.
- Cleaner teeth due to the unique vegetable matrix helping to 'brush' teeth while chewing.
- Unique Z shape to improve prehension.
- Gentle on teeth and gums.

MODE OF ACTION

- Pomegranate extract, a natural antioxidant, prevents accumulation of plaque forming bacteria.
 - Erythritol freshens breath with cooling action and limits biofilm formation.
 - Bad breath can result from gastrointestinal problems due to unbalanced intestinal microflora. Inulin, a prebiotic promotes a balanced and healthy gut flora.
 - Physically removes plaque and tartar.
-

DOSAGE / ADMINISTRATION

Give your dog one Veggiedent® FR3SH™ chew per day, or as directed by your veterinarian.

Never leave the animal unsupervised with chews.

INDICATIONS

Recommended to help maintain healthy, fresh breath and to support healthy teeth and gums by controlling plaque.

CONTRAINDICATIONS

No known contraindications.

STORAGE

Store at room temperature, away from heat and direct sunlight.
